

## Oxford Diecast

Posted by Baskingshark - 15 Feb 2010 06:37

---

Wow am I ever impressed by Oxford Diecast - I think they're some of the nicest models I've seen for ages. Even more so for being diecast and not white metal. I hadn't seen any up close before the Nuremberg show, but now I need to go and buy some!!! In the meantime, does anybody have any that they can show on here?
