Nice score. One day I am going to build my own garage.

Mine's not as nice but in my defence it was cheap.

As I am a British cars collector, I looked for un typically British look garage and Corgi had what I needed. The price wasÂ not badÂ (from a British seller on a swapmeet): 30 euros only.

Your garage is nice as well.

i want a garage but just cant display it as i have all my diecast tuck away in boxes until i get freestanding display cabinet, and not a good thing have sat on the side with a 3 year old kid about, hence whyÂ my diecast is tucked away safely.
