---

[Verem Chevrolet Camaro 1](#) by [Chris\\*4](#) , on Flickr

Reference number: 506

Scale: 1:43rd

Made in France

This Verem was the same casting as the Solido equivalent but fitted with different wheels. Also the packaging was upgraded. Verem's were sold in window boxes with a flock base. This Camaro was part of the 'Grand Tourisme' range and was available in the mid 1980's.

Like the Solido version this Verem has opening doors. Solido released the first model car with opening doors in 1961.

Verem became the promotional arm of Solido.

Cheers ChrisÂ
