I saw this little lorry in a charity shop & thought that look good, it reminded me of the Matchbox Foden, hence here it is £1.50 later.

Was it made by or for Hino as a promo or model that the customer got when he/she bought a truck? I have seen Hino trucks here in our valley and over a valley or two as well. They are all delivery vans that I have seen here.

Looks like a Grip Zechin model to me. Either that or a Tomica.

This was a standard issue Tomica Dandy number 28 in the range and first issued in 1975.

I have 2 Matchbox Hoveringham trucks. If there is anybody who wants them let me know.

Maybe we can trade, i collect Corgi Toys.

I send the trucks to you and you sent something from Corgi toys to me.
