

planes !

Posted by Terrytoo - 23 Nov 2016 23:36

I have just discovered that New Ray have introduced a couple of 42nd scale light aeroplanes. The 2 available here are both Cessna 172's one on floats, one with wheels. I got the one with floats to have a look, it's not too bad for the 585 rupees (£7.00) price.

I never noticed that these threads were among those hotstuff things. Ah well mind over matter I suppose. Might go for a joy ride this coming Australia Day.

Blast from the past. My brother-in-law Bill Forbes leaning against a NZRAF Spitfire in the islands during the Second World War.

And yes just loved to build and fly model aeroplanes from his younger days until he parted this earth.

I thought you might like these photos Terrytoo.
