

## Kenner Fast 111's

Kenner Fast 111's issued between 1980 and 1983 before being discontinued. Known for their large rear bumper and license plates. I had the Jett Vett (Corvette) in my youth and never forgot how smoothly these cars rolled. Below are two photos of cars from my collection. Please share if you've caught the Fast 111's fever as well 😊

Yes it good to fill in gaps in a good collection.
