

M2 Sub-section???

Posted by StarbaseBravo - 02 Jun 2011 22:51

I don't know if this is the correct way or place to do this and if it isn't, I apologize. However, I'm a bit surprised that there isn't an M2 Machines/Castline sub-section with all the other manufacturers. I don't know if it is available overseas or not, but I think it would be a nice addition. The Auto-Haulers, Patriotic Rides, and other series are coming out soon and as of now we don't really have a place to discuss them. I reckon you could lump Auto-Haulers in with the "Trucks and Lorries" section, but there are many other lines by M2. Is this brand not very popular or well-known here?

Anyways, just thinking...

In a case like this the best thing to do is end this post to one of the moderators (ME) and they would pass it on to the powers that be Send a note to remind me about it and I can pass it to the crew for you

I've just picked up 5 new ones from M2. My Wal Mart put out a bunch of them just as I was walking down the aisle, and I think I've got a real keeper. Chrome Road Runner lift off hood, along with a couple second generation Chevy Novas, the always required 57 Chevy and a Super Bird in black. I'll get pics and post ASAP> Just got back from town, so few things to do before I can play.
