Hi Guys how are you all ? all GOOD I hope ! not been on for ages cos had lots going on , Well this is my new toy/baby its a very rare Ford Sierra Police Demonstrator for the new 2 litre engine. Ford would loan this car to various Police Forces in the UK for evaluation and the last force to have on loan (luckily for me was the MET) had the option to buy it which the Met did . Here you see it in its Ford Police livery as it went on loan to the Met ( with Met crests on the doors ) so lucky to get this one to add to my Met Police Ford Sierra Collection. A Police Museum in Essex was closing and I got the call TG. And here you see all 4 of my Met Sierras on show at Dagenham Town show a few weekends ago and it was a BLAST to get the reactions from the old Ford employees. The Demonstrator blew there socks off. For more info see the info sheet we display with the car. Thanks to Andy for keeping me updated on all things Planet Diecast THANKS mate.

Good looking cars and nice write up. Did not know these Escorts came with a V-8, did not have v-8's in the Escorts over here. I have seen them in the Capri though.

Thanks for showing and it must have been a chore to get all 4 from your place to the show?

Good to see you back on here again & the car looks fantastic, great line up of a cars . Do Corgi make a model of this version of the Sierra or did they just make the Sapphire version?

Andy, I actually came across a heavily worn out version of a corgi police sierra 1:36th scale earlier this week when I went antiques shopping lol

Sadly it was missing it's boot/trunk end and looked rather sad along with an old escort of the same

scale.

This would be the Sapphire version of the Sierra

Sapphire is the saloon version of the Sierra from what I have just researched..

Correct me if I'm wrong.

I have been misleading myself! Corgi did make the hatchback version, I have a Ghia version from my original toys boxed somewhere & a Corgi junior version of the police one!

Great line up! Coming from a fellow Ford enthusiast! Yes I have a 1/36 scale Corgi Ford Sierra in

metallic blue along with a Corgi Junior version in white with Golden Wonder decals.

A Sapphire Cosworth version was made later too, my brother had the silver one.
