Its a little playworn, but still a nice VW with thin bpw to add to the vintage collection.

Was the only bidder for US\$4.99 a very nice bargain.

This will be my oldest.

What would be the age of this Siku VW as it would be good to add to my small collection of Beetles. I little touch of paint and she would be great mate.

I think this would be ref# V 230 (pictured below)
