Not the movie Tron.

I think these were the competition to playmobil at the time.

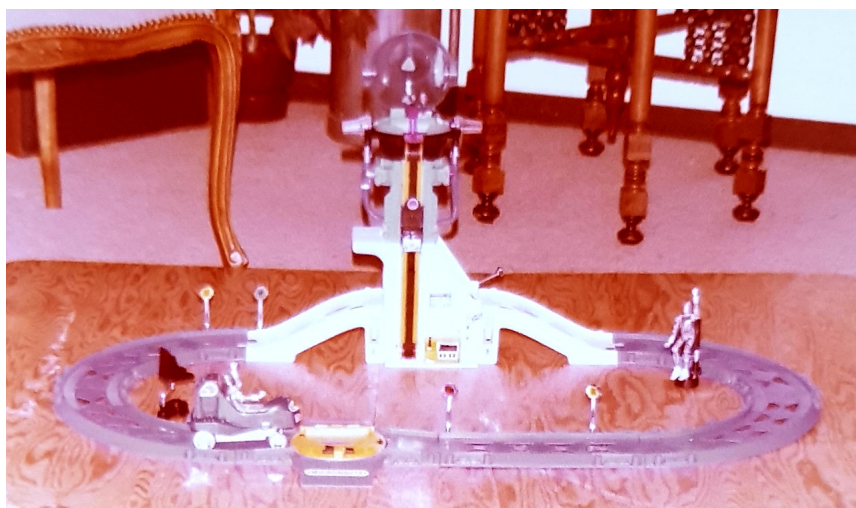

I had a huge set in the 1980s.

Yes the photo is blurry, its a digital made of a blurry discolored analog from the early 1980s.

Not something I have seen before but looks like great play value and hours could be spent on this set.
Thanks for showing.

Bit of a blast from the past, and had a lot of fun with it. Loads of imaginations as the robots versus the
A-team
