

Corgi Commer Police nr 464 version 1

Posted by Keesie - 09 Jun 2019 16:24

The Commer police 464 was done in several variations. Here is one.

Here the base with the button placed which locks/unlocks the rear.

Nice work on this little van. Looks good in the Police livery you gave it. Do you have other back sections to make it into other types of vehicles? Like Ambulance, City work Van Fire Van etc?

Well you said it. Besides the right colour, it can be changed in whatever. Several rear parts are in the Constructor set, and I showed you the ambulance, other police versions, the variations are countless.
