

Who said young people are not in to Corgis?

Posted by Keesie - 07 Jul 2020 15:21

The cousin of my wife came over with her young son, 1.5 years old now. He can just walk and starts tot talk. I was showing him some models and he especially liked the Ford Thames Musical van and the Impala Kennel service wagon with a dog on each side. Big fun.

(I am placing the pictures in which you do not see any faces).

Always fun to show small children new toys to play with. I also have fun with my Grand children. Not so much now with the virus though. Great to see a possible new Corgi enthusiast.
