

1/64 Lesney restos during Covid 19 days

Posted by gcladd - 13 Nov 2020 20:11

This is just an overview of some of the small scale Lesneys that I worked on the past couple of months during the Covid stay at home in your "family bubble" days. I have some larger 1/43 Lesneys and Dinkys that I have also been working on and will post later.

I have version 82.0.3 and it is up do date. What version are you using or have you added in add-ons to the program I don't know about?

Some great transformation and really good work on these (almost) ditched Matchboxes. Thanks for sharing these
