

## English & french dealer end flaps.

Posted by Corky - 29 Mar 2021 08:47

Re arranging my cabinets I've found one of my few english box with (having so many french ones like this) a dealer en flap.

Here it is with a rare fitted like this french one.

A Rolls-Royce and a popular car.

Amazing they are still intact. I don't think I have ever seen these end flaps.
