

## Hispano-Suiza and Cadillac from the past

Posted by karls - 10 Aug 2013 18:36

---

Here are two l'Age d'Or from my past collecting habit. I love the solid disk wheels and both radiator mascots:

1926 Hispano-Suiza H6B - original casting from 1966!

1931 Cadillac 452A - casting from 1979

Both made in France by SOLIDO.

Solido made some very nice models in this range. I come across them often

You and I must have had the same &quot;Past Collecting Habit&quot; I think Age d'or are very underrated models, like you I have had these for years.

My Hispano must be from the later casting
