

Benbros Quality Toys Bulldozer and Crawler.

Posted by GunnerJim - 03 Sep 2013 08:10

I managed to win this one in the middle of August 2013. Good buy or should I say win so as to join the Crawler that I managed to win some months ago. Thus completing the set.

I asked to be billed for, signed for (registered) airmail postage which increased the outlay price a little big more but is worth it in the long run \$70.37 AUD for the compete rig. Yes it does have the matching blade and pushing bar hydraulic lifting gear as the Moko Lesney.

I found the image of those tracks you sent me. Long time ago as my memory is not as good as it used to be. Cheers.
