

Cereal Box Toys

Posted by Dinkydi - 18 Oct 2013 05:59

I have kept from my childhood a small collection of cars from Kellogs breakfast cereals.

Made by Rosenhain & Lipmann from Melbourne, the later production was moved to Mexico around 1978. The ones I have are mostly Vintage and Veteran cars, Bullnose Morris Cowley , early Bugatti, Renault.

These are clip together kits and I assembled and detailed a couple when I was a lot younger which I photographed with a Dinky MG to show the size.
