I bought this collection a few years ago from an Auto jumble, I have left it as I bought it the cars are mostly mint & apart from a Corgi Junior are all Matchbox. I was lucky enough to pay for this the price of what one of the models would sell for today

Brilliant , great to see , these ones remind me of my childhood, I got two Christmas's running the Daf car transporter the first had the tyres on the lorry and the thin wheel Rolls Royce Silver shadow in red , Vw 1600 Tl,dark thin wheel mauve, an Iso Grifo thin wheel dark blue I can't remember the other , then the second year a Superfast wheeled one the cars I remember were a green Zodiac Mk4 with wide wheels and a light blue Iso Grifo with wide wheels.
