

## I need help IDing a Hot Wheels VW

Posted by Ovaltom - 20 Jan 2014 00:36

---

I think this one came from JC Whitney, but I could use a second opinion. The rear license plate is yellow and reads "RW 1". Does anyone have one that they can check for me? It's actually bright red (not pinkish) and has Real Rider tires.

I got confirmation that it is the one from JC Whitney. One mystery solved...about 200 more to go...
