

WHY PROJECT.....VIEW WITH CAUTION

Posted by Modelguru - 05 Jan 2010 09:35

The WHY PROJECT was done for a holocaust museumthe total project too aprox. 11 months to complete .

It is a depiction of the selection process at gate 3 Auschwitz-Birkenau, in no way is this a glorification of what happened it is simply done for one word

ONE SIMPLE WORD.

ONE SIMPLE QUESTION WITH NO SIMPLE ANSWER

WHY?

So please view this with caution and a open heart to the plight of the people who sufferedand remember if we ask ourselves why then perhaps this can be prevented from happening again.

Did you know that many of the Germans are very ashamed of their past? That is something I was taught in school.

Over the years, I have meet and talked with some of the survivors of the Holocaust here in Australia from my involvement with the Returned and Service League Australia. Some years ago I had the privilege of attending the Jewish Pre-Anzac Day service held in the Old Melbourne Cemetery area, where the Jewish community have their service on a Sunday before Anzac Day. Almost all in-attendance were from WW2 vintage, although a couple from the Vietnam War were there as well. I took a couple of pictures of the Obelisk 1914 to 1918 and the 1939 to 1945 memorial which has been update to include Vietnam, while they were setting up for the morning service.

In conclusion the dedication and talent by Chris with his donated 3D miniature scale of such a tragic period in this world's history by far the most atrocities ever carried out by human beings for the museum. I extend my respect and gratitude to him. One must say all wars are tragic although one must defend our freedom and our children's children's freedom as our for fathers have done before us.

Lest We Forget.
