Hello Jorge,

a warm welcome from The Netherlands.

I think Ebay is the best option for finding the models

Are you on the Tekno email newsletter? They will tell you when new models are out! See

[www.tekno.nl/en/webshop/dakarmodels.html](http://www.tekno.nl/en/webshop/dakarmodels.html). They have some very nice stuff!

Dear RoutemasterNL,

Thanks for yor reply.

Most of the models i have were bought on e-Bay.....

I go there every week to check for news. I am "desperate" in findind the Dakar winner in 2007 in a MAN - Hans Stacey - that is from your country.

Can you tell me if you know, by that time, if they have launch a models of this truck???

Best Regards

Hi!

I already have the models that i'm looking for from this site. I'm interested only in trucks winners and

others that were more competitive, due to lack of space.

I bought from here even before going on e-Bay, directly to Mr. Raymond van der Weijden.

Do you know him????

Best Regards.

Jorge - No, I do not know the man. I am a long time collector of the original Tekno from Denmark and have kept up with the company ever since. Good luck with your search!
